PART I - GENERAL INFORMATION

This section provides information on the number of people served by the library and on public service outlets. Reported figures are as of the last day of the fiscal year.

1. Number of registered borrowers? _____ 1

A registered borrower is a library user who has applied for and received an identification number or card from the public library which establishes the conditions under which the user may borrow materials. Figures are not reported unless the library has purged its file at least once within the last three years. If the library has household registration rather than or in addition to individual registration, the library has multiplied the number of households registered by the average number of persons in each household in the state which is currently 2.7.

2. Number of central libraries? _____ 2

The single unit library, or the unit where the principal collections are kept and handled can also be called Main Library. Note: Not all administrative entities have a central library and some administrative entities have more than one central library.

3. Number of branches? _____ 3

Branch libraries have all of the following: 1) separate quarters, 2) a permanent basic collection of books, 3) a permanent staff, and 4) a regular schedule for opening to the public. They are, however, administered from a central unit. In your system, these libraries may not be termed "branches", nevertheless if they meet the definition, count them here.

4. Number of bookmobiles? _____ 4

A bookmobile is a traveling branch library. It consists of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) paid staff; and 3) regularly scheduled hours (bookmobile stops) for being open to the public. Note: Count the number of vehicles in use, not the number of stops the vehicle makes.

5. Number of other public service outlets? _____ 5

A total of all other service outlets, that are not branches or bookmobiles. For example: deposit collections and collections in nursing homes, jails, hospitals, half-way houses, day care centers, kiosks, etc.

FULL-TIME EQUIVALENT EMPLOYEES: Report figures as of the last day of the fiscal year. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment. To compute full-time equivalents (FTE) for each employee in any staff category, the number of hours worked per week is divided by 40.

Report figures as of the last day of the fiscal year. Include all positions in the library's budget whether these positions are filled or not.

LIBRARIANS – Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. Each librarian is reported in only one category.

PART VI - SELECTED SPECIAL EXPENDITURES	Amount
--	---------------

This section includes lines for expenditures, which may appear in different places on different library budgets. (For example, online database searching may be considered under collection expenditure in some libraries and under "other operating expenditures" in other libraries.) It is expected that amounts reported in Part VI HAVE ALREADY BEEN REPORTED in Part V. They are requested here, however, so that trends in these important areas may be documented.

Round to nearest dollar

42. Entry Level Professional Salary \$_____ 42

Figure shown is annual salary (not a salary range) for the reporting fiscal year.

PART VII - LIBRARY COLLECTION	(Held at End of Fiscal Year)
--------------------------------------	-------------------------------------

Note: Unless otherwise indicated, reports for each item are the physical units held at the end of the year. Physical units are items which are packaged together as a unit, e.g., two compact discs or two video cassettes, and are generally checked out as a unit, should be counted as one physical unit. Libraries report the number of units owned, both cataloged and uncataloged. If physical units data is not available, you may substitute titles held.

Physical Units

43. Books / Serial volumes _____ 43

Nonperiodical printed publications bound in hard or soft covers, or in loose-leaf format. Publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), proceedings, and transactions of societies. Except for the current volume, unbound serials are counted when the library has at least half of the issues in a publisher's volume. Government Documents may be added here, whether in a separate collection or not.

44. Audio Materials _____ 44

A generic term for materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. This includes audiocassettes, audiocartridges, audiodiscs, audioreels, talking books, and other sound recordings.

45. Video Materials _____ 45

A generic term for materials on which pictures, sound, or both are recorded. Electronic playback reproduces pictures, sounds or both using a television receiver or monitor.

46. Materials In Electronic Format _____ 46

Report the number of physical units such as CD-ROMs, magnetic tapes and magnetic disks that are designed to be processed by a computer. Examples are U.S. Census data tapes, locally-mounted databases, reference tools, and serials on CD-ROM, tape, or floppy disk. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.

47. Other Library Materials _____ 47

Includes all materials not already reported.

48. Current Serial Subscriptions _____ 48

This refers to the arrangements by which, in return for a sum paid in advance, periodicals, newspapers, or other serials are provided for a specified number of issues. These are print and microfilm subscriptions only; not electronic or digital subscriptions. Note: Count print subscriptions purchased from the library's budget and those donated to the library as gifts. Count titles, including duplicates, not individual issues. Include the total number of subscriptions for all outlets.

PART VIII - LIBRARY SERVICES TOTALS FOR THE FISCAL YEAR
--

Reported as an Annual Figure

49. Public Service Hours, Annual _____ 49

This is the sum of annual public service hours for outlets. Note: Include the hours open for public service for centrals, branches, bookmobiles, and books-by mail only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For Administrative Entities that offer ONLY books-by mail service, count hours that the outlet is staffed for service. Minor variations in scheduled public service hours need not be included, however extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work.

Count both central library and branches using the following method. If the central library is open 60 hours per week (60 times 52 weeks = 3120), less 5 days of 10 hours each closed for holidays, the main library total is 3120 less 50 = 3070 hours. If 3 branch libraries are also open the same number of hours as the main library (regardless of whether or not all facilities are open at the same time), the

annual aggregate for the library is 4 times 3070 = 12,280 hours.
Includes bookmobiles if appropriate.

50. Total Attendance In Library Per Year _____ 50

This is the total number of persons entering the library for whatever purpose during the year. Note: If an actual count of visits is unavailable, determine an estimate by counting visits during a typical week (October is suggested) and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

51. Total Reference Transactions Per Annum _____ 51

The total reference transactions per year, whether completed or not. Definition: A "reference transaction" is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holdings records, and, through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, mail, or by electronic-mail from an adult, a young adult, or a child.

Do not count directional transactions or questions of rules or policies. Examples of directional transactions are "Where are the children's books?" and "I'm looking for a book with the call number 811.2G." An example of a question of rules or policies is "Are you open until 9:00 tonight?"

Note: If count of reference transactions is unavailable, determine an estimate by counting reference transactions during a typical week.
